Pitch

Inspiration

In June 2020, movements like Letters for Black Lives sought to connect Asian American communities with the Black Lives Matter Movement through a series of translated letters.

Mental illnesses are among the most common health conditions in the United States.

52.9 million

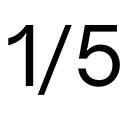

>50%

Americans living with mental illness

Pitch

Will be diagnosed at some point in their life

1/25 Living with serious mental illness

Will experience mental illness in a given year

How do we destigmatize mental health in Asian American families?

19 million

Pitch

17.3%

Asian American identifying people in the US

Lifetime rate of any psychiatric disorder

3 times

Less likely to seek help than white Americans

8.6%

Actually sought out resources

HOW DO YOU DEFINE FAMILY BEYOND JUST BEING RELATED? GET SPECIFIC.

WE'RE NOT REALLY STRANGERS FAMILY EDITION

We're Not Really Strangers

A conversation-based card game designed to foster connection through a series of prompt and activity cards.

Research

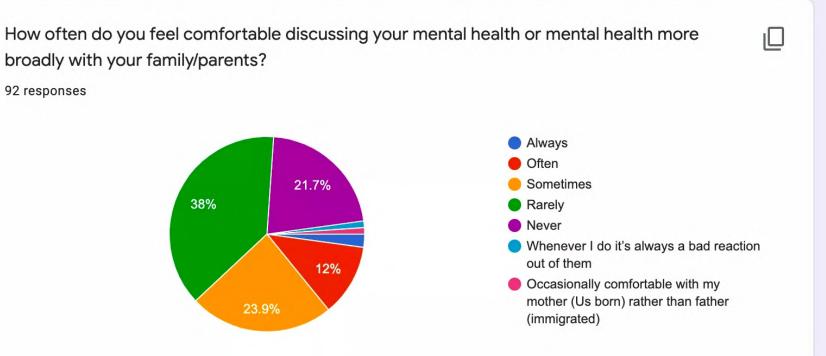

I sent out a survey to get a base level understanding, as well as ~25 interviews with Asian Americans ages 18 - 26.

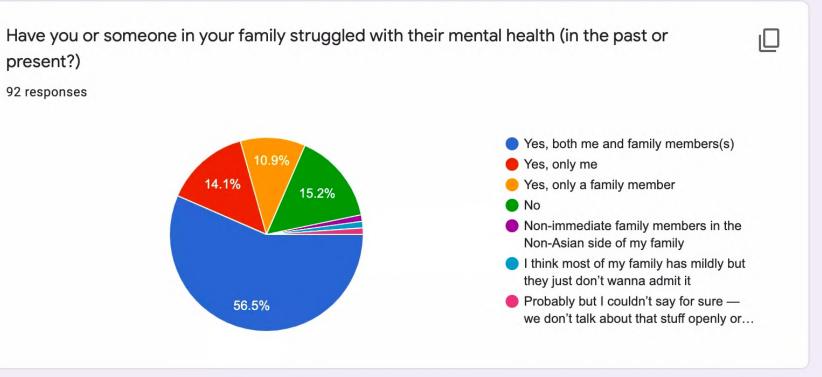

These responses helped me ideate key user needs to start these discussions:

- General education about mental health
- Family history of mental health
- Their own mental health
- A family member or friend who is struggling
- Encouraging a family member to get help
